The **GTR Commodities** event targets the global commodity financing sector. It takes place in Geneva on 20 September 2022.

The event provides a platform for networking between leading industry experts.

This year it will feature assessment of the shifts impacting global commodity trade and financing as a consequence of the conflict between Ukraine and Russia and the lingering pandemic-driven supply chain disruption. Interactive debate will seek to map a course through a rapidly evolving trading landscape, focusing on

- growing investment in new geographies to secure goods supply,
- impact of energy security concerns on the decarbonisation and 'net-zero' agenda,
- need to ensure traders of all sizes have suitable access to financing,
- role of technology in enhancing efficiency and transparency, from digitising crucial paper processes to tracking ESG performance.
